Havana, Mar 24 (Prensa Latina) Cuba is your home and all those who fight for Our America, President Miguel Diaz-Canel told Argentine Vice President Cristina Fernandez, who thanked Cuban doctors for successfully treating her daughter who recovered in Havana from several ailments.

Diaz-Canel posted on Twitter that providing health to Florencia, daughter of the former Argentine president (2007-2015) was a duty and a pleasure, for which she had nothing to thank.

We are the sons of Fidel, Raul and the historical Generation, the President added on Twitter where he also posted: Dear Cristina, when the dream of our liberators is finally fulfilled, the transit between our nations will not be a journey.

Fernandez posted on Twitter the committed vocation of the Cuban doctors, their 'deeply humanistic' conduct and the precise diagnosis with which they treated Florencia for post-traumatic stress disorder.
