Havana, July 5 (RHC)-- The National Director of Epidemiology of the Cuban Ministry of Public Health, Dr. Francisco Duran, reported that there were three new cases detected of COVID-19, for a total of 2,372 positive cases across the island.

During his daily press briefing held Sunday morning, Dr. Duran said that over the past 24 hours -- up until 12 midnight Saturday night -- fortunately, no patients died from the coronavirus. A total of 86 patients have died in Cuba over the past several months. This is the eighth consecutive day that there have been no deaths caused by COVID-19 on the island.

To date, 2,229 patients have recovered -- with two patients released from hospitalization during the day on Saturday.
