Pelosi noted that walking away from the agreement aimed at curbing climate change would mean that Trump is denying science, taking away safeguards that protect US health and environment, and threatening national and global security.

Trump will also ensure that other countries will receive the investments in clean energy that could bring jobs to the United States, Pelosi added.

Trump said on Wednesday that he will reveal his decision on whether the United States will remain in the Paris Climate Agreement in the next few days. But according to US media reports, he will withdraw the country from the historic accord.
