The Cuban Ministry of Public Health (MINSAP) reported that as of April 7th, 1,732 patients are being investigated, of which 1,061 are suspects, with 416 confirmed cases.

- Another 9,014 people are being followed up by primary care.

- 61 new cases confirmed yesterday for Covid-19.

- The country has carried out 9,410 studies, of which 457 has been confirmed positives.

- Of the 61 new cases confirmed, 60 are Cubans and one foreigner.

- MINSAP also regrets the death of one Cuban patient.

- Cuba announced Tuesday the presence of *limited autochthonous* transmission of COVID-19 on the island
