With the addition of 58 new confirmed cases of Covid-19 in Cuba, caused by the SARS Cov-2 coronavirus, the total number increased to 515, the Ministry of Public Health reported today.

The director of Epidemiology of that entity, Francisco Durán, specified that of the last affected, 56 are Cubans and two foreigners.

He pointed out in the usual press conference to update on the disease that 1,315 cases were studied yesterday, and now there are 10,725 samples analyzed.

Durán also expressed that 454 of the admitted patients have a stable clinical evolution, eight are in critical condition and the same number are serious.

He also regretted the death of three people in the last hours, and a total of 15 died from the disease.

On the other hand, the doctor reported a new medical discharge for 28 patients recovered from Covid-19 in the country.
