#Cuba demanda respuestas sobre ataque terrorista a embajada cubana en Washington en víspera de #1deMayo. Silencio del gobierno imperial debilita retórica antiterrorista de su gobierno. #SomosCuba #SomosContinuidad

Havana, May 12 (RHC)-- Cuba has reiterated its demand to the United States to fully investigate the recent terrorist attack on the Caribbean nation's embassy in Washington. President Miguel Díaz-Canel, on his Twitter account, wrote: "Cuba demands answers about the terrorist attack on the Cuban embassy in Washington on the eve of May 1st. Silence of the imperial government weakens this government's anti-terrorist rhetoric."

The day before, on the social network itself, Diaz-Canel made a similar demand when it has been 12 days since the machine-gunning of the diplomatic headquarters by an individual who is in the custody of U.S. authorities.
