26/06/2018

Santa Clara, Cuba, Jun 25 (Prensa Latina) A fire reported in one of the venues of the Telecommunications Company of Cuba (ETECSA) in this central city causes today severe damages to the coverage of cell phones on the island.

According to a press release issued by the entity, the incident occurred in a technological site of the Telecommunications Center of Villa Clara, which provokes serious damage to the cellular network in the west and center of the country.

The provinces of Villa Clara, Cienfuegos and Sancti Spiritus, in the center, as well as the western Pinar del Rio remain totally without cell coverage, ETECSA reported.

In addition, the number of services for mobile phones that begin with 54, 55 and 56 from any region of the country can be affected, according to the telecom company's statement.

Local radio reports point out that the source of the fire has not yet been clarified, which occurred in one of the most central buildings in Santa Clara, the capital of Villa Clara province, some 250 kilometers east of Havana.

At this moment, the causes are being identified and the contingency measures are taken, according to the authorities.

ETECSA will continue to inform the population through the mass media and the usual channels of information, as well as telephones 118 and 52642266, the company points out.
