### Fireworks Explosion Kills 24 in Teultepec, Mexico

06/07/2018

Teultepec, in the State of Mexico, the scene of mortal and recurring pyrotechnic accidents, is today the image of the tragedy, after the death of at least 24 people for explosions ripped through firework workshops occurred yesterday.

Among those killed are state and municipal police officers and firefighters, as well as civilians and five strangers.

More than 40 injured, nine of them in serious condition, are hospitalized and it is not ruled out that the number of deaths will continue to grow.

President Enrique Peña Nieto sent his condolences to the relatives of the victims, while authorities are studying the temporary closure of the pyrotechnics workshops to assess the security measures.
