Evo Morales Thanks Sao Paulo Forum for Support for 2019 Candidacy

19/07/2018

La Paz, Jul 18 (Prensa Latina) Bolivian President Evo Morales expressed gratitude for the support from the 24th Meeting of the Sao Paulo Forum for his candidacy for a new term in his country's elections in 2019.

In a message on his Twitter account, Morales thanked the Latin American left for its support in the Havana Declaration.

We welcome the resolution of the 24th Sao Paulo Forum, which supports the constitutional candidacy of authorities for the peoples' self-determination by the American Convention. In democracy, it will be the people that will decide to give continuity to economic growth and to improve what has been achieved, Morales wrote.

The Bolivian president also welcomed that the final document of the meeting calls on Bolivia and Chile to find a solution to Bolivia's access to the sea on the basis of dialogue and international law.

We thank the resolution of the 24th Meeting of the Sao Paulo Forum that calls on Chile and Bolivia to find a solution to the maritime confinement with dialogue and respect for international law for the integration of our peoples. The Hague's ruling

must unite us, instead of dividing us, the head of State said in another Twit.

On Tuesday, the participants in the 24th Meeting of the Sao Paulo Forum closed the event with a declaration that, among other issues, supports the candidacy of Bolivian President Evo Morales to run in the 2019 general elections, and calls to solve the Chilean-Bolivian maritime dispute peacefully.
