
Cuban handicrafts will reach Spain's beaches in 2020

21/02/2020

Products from the province of Holguin made with bamboo will reach Spain in 2020, including sun loungers, convex fences, stools and quadrants for ceilings, among others.

The initiative of the Local Industries company in this city, about 700 kilometers from Havana, proposes attractive and comfortable environment-friendly designs that have the hallmark of Cuban handicrafts.

These new lines of the Holguin exportable fund portfolio are joined by others manufactured by the mechanical company 'Heroes del 26 de Julio,' which will be directed towards the Caribbean area and Jamaica.

Likewise, some of the Selected Fruits offers will reach the Canadian market in the fourth quarter of this year, according to Leonardo Bruzon, head of the Department of Foreign Trade in Holguin.

Currently, 38 products are consolidated in this territory, including coffee, zeolite, plows, equipment and implements for cultivation, benefited honey, crooked tobacco, nickel and its derivatives and electronic scrap.

These products will be promoted during the next ExpoHolguin 2020 trade fair, to be held from March 16 to 20 in this city, an event sponsored by Copa Airlines and the Spanish hotel chain Iberostar.
