
Macbeth and his Witches at Mella Theater

12/06/2015

A man (Macbeth) kills people linked to power, with the purpose of being promoted in society. Influenced by his wife, Lady Macbeth, the star will do anything to achieve the longing power, and then, the situation goes against him.

“We are very satisfied with the results. We have had a lot of public and would like to stay longer on the billboard, though, unfortunately, there are still more theater companies than theaters. None withstanding, we hope to rerun the play anytime”, told Cubarte digital newspaper Nelson Dorr, 2011 National Theater Award.

Actor Arnoly Pierre incarnates Macbeth, while Gladys Casanova plays the role of Lady Macbeth. The witches, iconic characters of the work, were performed by actors Videlia Rivero, Jony Fonseca, Onix Quincose, and Lázaro Vedey.

Those attending *Macbeth* by Nelson Dorr Theater Company will enjoy a special wardrobe and decoration work which are part of the historic age where this play is developed.

“We have been preparing for this work for over a year, where we have examined all the details, from the period’s clothes up to the gestures. Naturally, we adapt and sum up the texts, to shorten the work, since the original play is very long”, added Dorr.

After two weeks of successful performances, the theater company will arrive to the last days with the satisfaction of those who enjoy the classics, another opportunity for the Cuban

audience to know the famous play written by Shakespeare and adapted to the Cuban theater.
