International community has abandoned Palestinians, says rights activist

“The international community has totally abandoned” the Palestinians, the analyst argued, adding that the situation is escalating every day.

What we are seeing is systematic abuses, Shadjareh said, adding that the “reality is that Palestinians have been abandoned by the international community, by their fellow Arabs; and very few are willing to stand up and support them.”

According to the Palestinian Health Ministry, the recent wave of the deadly Israeli aggression has taken its toll on the lives of over 50 Palestinians, including a dozen children.

Israel launched a harsh crackdown in early October on the Palestinians enraged by the settler violence and a plan by the Tel Aviv regime to change the status quo of the al-Aqsa Mosque.

In August, the Israeli regime imposed restrictions on the entry of Palestinian worshipers into the al-Aqsa Mosque.
