
Havana Cigars: New Designs and Cigar Bands

16/07/2014

New designs and cigar bands of the Vegueros brand will soon be on the market as part of strategies of the Habanos S.A. Corporation, in charge of its commercialization in the world.

The brand incorporates new bands and innovative metal containers, which changes the image introduced in 1996 to pay tribute to all the agriculture workers who, generation after generation, have cultivated tobacco in western Pinar del Rio province.

Mañanitas, Entretiemplos and Tapados, its three cigar bands, offer formats that are very appreciated by smokers and will reach a wider spectrum of consumers.

Vegueros is made at the Francisco Donatien cigar factory in Pinar del Rio, along with other renowned brands, like Trinidad, Montecristo, Vegas de Robaina, Hoyo de Monterrey and Romeo y Julieta.

Ana Lopez, director for Marketing of Habanos S.A., told ACN that all cigar bands of this brand are hand-made.
